

AlarmSecur.com

Protect your business with **Integrated CCTV and Alarm System** Connecting directly with a **LIVE Video Monitoring Station**

Fast and reliable secured including:

- Push alarm when sensor is activated
- Including video 2 seconds before activation
- Connect all existing wired sensors
- Add additional wired or wireless sensors
- Connect to Local Video Alarm Center
- Monitor all systems from 1 central location
- Permanent LIVE Video Streaming
- 24h recording on SD card
- Alarm notifications send to local VPN cloud
- Facial recognition

Integrate **existing CCTV security** and upgrade to **LIVE Video** **Monitoring Center**

Control and operate all Branches locally and from one central location

- **24/7 access**, view and control
- Immediate **push alarm**
- Including **photo and video**
- **100% private, 100% redundancy**
- **Local and central monitoring in same VPN network**
- **View, speak and listen** anytime, anywhere
- **Easy share** to local (mobile) security guards
- Integrates easily into **VPN network** and **dedicated servers**
- 100% **control** over **software and CMS**
